GHG Protocol

# MTA DATABASE – 2025 PV (SIGN OFFICE)

# Reefer Online Service (IoT)

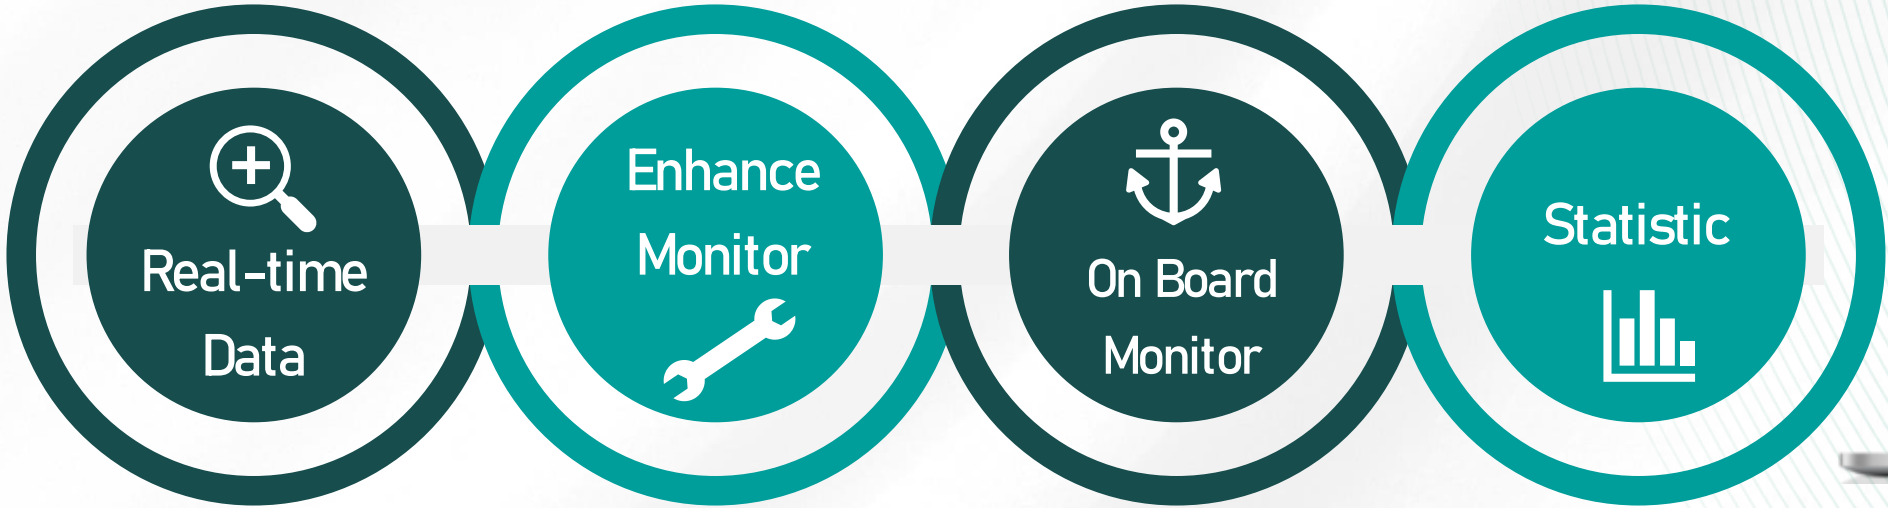

- Important Progress of Evergreen IoT -

- Phase 1: 2023 Installed **2,000** IoT devices from Carrier and Star Cool
- Phase 2: 2024 done additional **27,000** IoT devices
- Phase 3: 2025 completed of installation for the accumulated **47,000** units (98%)
- Phase 4: 2026 work on the remainder 1-2% (within 1,000 Units) by Q2

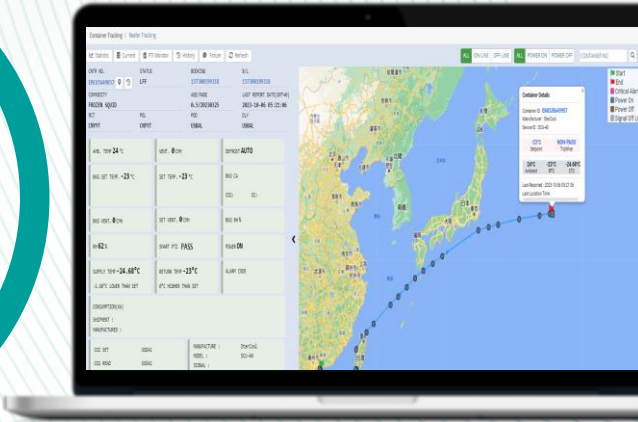

Smart PTI, abnormal alarm

Collecting data for ESG control

Compare temp with BKG requirement

Assist crew monitor reefer on board

# EverDRY SMART (IoT)

GPS Functions Available

## - Important Progress of Evergreen IoT -

- 

**2023/2024 R&D**
  - 

**2024/2025 Test & Production**
  - 

**95,000+ units been installed for Validation**
  - 

**2026 Mass Production**
- Mass production, deliver 20K units/month. To make it 300K in total under Evergreen dry fleet.

Smart Container Tracking Dashboard

- 

**Container tracking, integrated with SQL+ data, expedite inventory control, promote potential hinterland export, reduce empty repa**
- 

**With light/shock/door/Temperature sensors, helping to identify the timing and root of cause and/or L/P tracing.**

**Attention: DO NOT remove IoT device from container.**

# EverDRY SMART

Dry Box fitted with advanced IoT device

-  Released Function
-  Under Development

**Shocks Alert**

**Temperature Monitor**

**Door Open Record**

**Integrated Visibility**

**Real Time Position**

**Movement**

**Leverage real time intelligence with 24/7 end-to-end visibility to optimize supply chain footprint, supported by intelligent alerts for data-driven decisions.**
